14	7/14/2016		M	Price Factor	<p>It is our understanding that aside from submitting the coefficient schedule, the price proposal for the seed project shall be priced using the current (2016) RS Means Cost Data Set. Meaning, the total proposal price shall be RS Means bare cost * Coefficient. Please confirm.</p>	<p>Not necessarily. In accordance with Section C.10.2, After receiving the Request for Proposal from the government, the Contractor shall identify the task and quantities required from the R.S. Means Unit Price Book for all pre-priced tasks... Section C.10.3 states Non-pre-priced tasks, if any, shall be separately identified and submitted in the proposal as outlined in Section C.8. The Means Cost Data software/books are to be used for pricing of all materials and services, unless the material or services are not contained in the Means Cost Data books. Only when a specific material or task is not contained in the Means Cost Data, or has not been added to the pre-priced list via modification, the Contractor may use the non-pre-priced tasks. The Government will not accept non-pre-priced work if the materials or services are listed in the Means Cost Data books/software.</p> <p>*Therefore, the seed project proposal price shall be the proposed price (pre-priced or non-pre-priced) * the applicable coefficient the offeror is proposing (based on the offeror's coefficient schedule).</p>	4
